WEEKLY TECH ROUNDUP SPECS & RATES

(EFFECTIVE 08/01/22)

RBR+TVBR WEEKLY TECH ROUNDUP

RBR+TVBR WEEKLY TECH ROUNDUP

Scheduling:

Daily Newsletter ads are sold in calendar monthly increments; Less than one month 25% premium for guaranteed run.

Terms:

Payment in full for each monthly schedule is due on the first Friday of the month following your scheduled start date.

In the rare instances where holidays occur and no daily is published, make goods cannot be guaranteed. All make goods will be subject to availability, based on schedule specs and rates. Every effort will be made to provide comparable position, but cannot be guaranteed.

ALL RATES ARE NET.

Radio and television technology is not static. In fact, it's always changing and station owners need to know how these changes can impact operating expenses.

In this weekly roundup, Radio+Television Business Report will report on technology and equipment that's here today and what could be coming down the road. The weekly update covers a full range of tech-related topics of interest to media management and the individuals responsible for cutting the checks.

- Broadcast media cyber security and protecting operations from worrisome hackers
• Revenue maximization through new sales management tools
• NEXTGEN TV and the tech updates needed to fully empower ATSC 3.0
• AI and its potential positive impact for radio and TV sales teams
• Close-up product details ahead of big industry conferences and expos
• Cloud-based streaming and production advancements for radio and TV
• Who's been hired in the engineering and IT spaces

The stories in this weekly tech update from RBR+TVBR are designed to inform the media business community on what matters most when it's time to invest in today, and the future.

Table with 7 columns: Placement, Avails, Description, Specs, 1 Month, 3 Months, 6 Months, One Year. Rows include Leader Board, Position 1, Position 2, and Position 3.

CONTACT US ABOUT RATES.

***Add Tech Round Up to RBR+TVBR and/or Radio Ink Online or Print schedule for 75% of the Tech Round Up applicable rates. Schedule dates and length of run must be matching and placed at the same time.

A note on ad sizes: Many smartphones, tablets, and laptops feature high-definition screens, such as retina displays, that offer a higher ratio of pixels per inch, meaning some images may appear fuzzy on these displays.

In short, we encourage designing original ads at the Retina Ready (x2) sizes below.

Files must be gif or jpeg, and no more than 60k. Please e-mail all ads directly to April McLynn at amclynn@streamlinepublishing.com, along with the click-through URL.

Call for available positions on Daily Newsletter and Website.

MATERIALS-DUE SCHEDULE: All ads or classified copy with instructions are due at least three business days prior to the posting date.

PLEASE NOTE: Recognizing the generally established principle that rapid-blink banners are a click-out factor with online viewers, animated ads should change faces at a rate no greater than every five seconds. Tile and banner ads must have either a solid-color background other than white or a thin line outlining the edges of the ad.
